Background

Born at Lahan, a small village, which is 29 km away from Nanded City, on 12th July 1955 in a middle class farmer's family and completed Primary Education in Zilla Parishad School at Ardhapur, which is 9 km away from village Lahan of Tahsil – Ardhapur. As there was no facility of any conveyance in that area during those days, walking was the only option to reach other places. We use to walk more than 18 km daily to attend school. I was born in a big joint family consisting of 80/90 members in the family. My father was a freedom fighter and senior most member of the joint family. I have four brothers and three sisters; all are well settled most of them are in Government services. I completed my Secondary School Education at People's High School, Nanded. Almost in all examinations, I stood 1st or 2nd in the class.

For Under Graduate medical education I had applied at Sevagram for M.B.B.S. course from open category. My position for admission was at number one in the waiting list. At that time some seats were reserved for the wards of freedom fighters. But I could not avail this facility, as entitled to freedom fighters' wards, because of my father's strong principles against obtaining such benefits. Hence I could not produce the certificate as a son of freedom fighter and hence I could not get the admission for M.B.B.S. course. Therefore, I applied for B.A.M.S. at Panchavati Ayurved College, Nashik. As my elder brother was working as a Senior Police Inspector at Nashik that time, I happily took the admission at Nashik for B.A.M.S. course. After two years, when my brother transferred from Nashik, I also had to transfer my admission to Government Ayurved College, Nanded.

Then I stood 1st class 1st in every B.A.M.S. University degree examination. After completion of my Graduation, I worked as an Extension Officer (Health) at Panchayat Samiti, Nanded, as a District Epidemic Officer in Public Health Department of Zilla Parishad, Nanded then as a Medical Officer at Civil Hospital, Nanded. In 1983 I changed my track from Public Health Department to Academic field and joined as a Demonstrator in Government Ayurved College,

Nanded. In year 1987 – 88 I was transferred to R.A. Podar Govt. Ayurved College, Worli, Mumbai.

Since then, I worked in the capacity of Lecturer, Reader and Head of the Department of Shalakya Tantra(ENT & Ophthalm.) till the year 2006. While working at R.A. Podar Ayurved College, Mumbai, Government of Maharashtra assigned me on various Administrative and sensitive works / responsibilities viz. inspection of various colleges, enquiries of academic Institutions / persons and such various sensible committees of Government. I have worked as a Liaison Officer in various districts of Maharashtra for MH-CET examinations and worked in the admission process for Health Sciences courses conducted by Director of Medical Education & Research (DMER). I am one of the founder members of Maharashtra University of Health Sciences, Nashik and worked on all of the authorities like Planning Board, School of Research, PG Board and Academic Council of the University. My performance in all these important activities was well appreciated by the Government. The State Government therefore, recommended my name to Union Government for prestigious "**Padma**" (i.e. Padmashri, Padmabhushan, etc) awards. After that, the Government gave me an opportunity to work as a "**Registrar**" in the Maharashtra University of Health Sciences. Now I am Working at R.A. Podar Govt. Ayu. Medical College, Mumbai. The remaining details of my professional experience can be seen as enclosed in the Curriculum Vitae.....

AT PRESENT :

- **ASSO. PROFESSOR, Head of the Department (Shalakya) R. A. PODAR GOVT. AYU. MEDICAL COLLEGE,**
- **Member, High-level Committee for M.D. / M.S. (Ayu.) admission Process of Govt. Of Maharashtra.**
